

SUMMARY OF THE PUBLIC PARTICIPATION PROCESS

This section of the report is included in compliance with the Regulations. Public participation is an integral part of the EIA process, and affords potentially interested and potentially affected parties (I&APs) an opportunity to participate in the EIA process, or to comment on any aspect of the development proposals.

Other relevant considerations regarding the public participation process being undertaken for this project are that:

- The public participation process being undertaken for this project complies with the requirements of the Regulations.
- The description of the public participation process included in sections below itemises the steps and actions undertaken.

Adverts were placed in the following newspaper:

- Swartland Gazette on the 16th of January 2018.

The notice boards were placed on site from 16th January 2018.

The Pre-Application Consultative Basic Assessment Report **was sent** to the following key Departments on the **20th of February 2018**:

1. CapeNature
2. Department of Agriculture
3. Heritage Western Cape
4. Department of Water Affairs
5. West Coast District Municipality
6. Swartland Municipality
7. Department of Health
8. DEA&DP Waste Management
9. DEA&DP Pollution Management
10. DEA&DP Air Pollution
11. SANRAL
12. DEA&DP Development Management (deciding authority)

Eight (8) notices were sent via registered mail on 12 January 2018 owners and occupiers of land adjacent to the site where the activity is undertaken. The notice requested them to register as Interested and Affective Parties (I&APs) and invited them to provide written comments together with the above reference number, their name, contact details and an indication of any direct business, financial, personal or other interest which they have in the application to the contact person indicated below within 30 days from the date of this notice. The notice also requested the owner to inform all persons residing on the property.

STEPS TAKEN TO NOTIFY POTENTIALLY INTERESTED AND AFFECTED PARTIES

This section of the report is included in compliance with the Regulations.

Potential I&APs were notified about the project by:

1. Fixing a notice board at the boundary of the site in compliance with the Regulations. All relevant and required information was displayed on the notice board. The notice board contained the following minimum information (Size of Board 70 x 50 cm):
 - how to register as an interested and affected party;
 - the manner in which representations on the application may be made;
 - where further information on the application or activity can be obtained; and
 - the contact details of the person(s) to whom representations may be made.The fact that the public participation process had commenced, that a basic assessment process will be followed, the dates within which they can register or send comments and what the proposed activity constituted, was displayed.

Photos of the notice board are included. The notice board was placed on site on 16 January 2018.
2. Giving written notice to owners and occupiers of land adjacent to the site where the activity is to be undertaken, the municipal councillor of the ward within which the site is located, the local municipality and those organs of state having jurisdiction in respect of any aspect of the project as required by the Regulations. Eight (8) notices were sent via registered mail on 12 January 2018 owners and occupiers of land adjacent to the site where the activity is undertaken.
3. Placing an advertisement in a local newspaper in compliance with the Regulations. An advert was placed in the Swartland Gazette on the 16 January 2018 notifying the public of the development and inviting them to register as Interested and Affected Parties within 30 days.
4. Lists of Identified and Registered Interested and Affected Parties
This section of the report is included in compliance with the Regulations. This list includes the potential as well as the registered Interested and Affected Parties. The list of parties who were identified as potential I&APs as per the requirements of the Regulations and the list of parties who requested registration as an I&AP, and who are registered on the I&AP database for the project as required in terms of the Regulations were included. A Comments and Response Report from registered I&AP's will be included.
5. Workshop with Key Role players
No workshops were held.

**NOTICE SENT TO NEIGHBOURS
PUBLIC PARTICIPATION PROCESS
PROPOSED ONION DEHYDRATION PLANT ON PORTION 26 OF FARM 817 MALMESBURY
DEA&DP REFERENCE NR: 16/3/3/6/7/1/F5/16/2218/17**

Notice is given of the public participation process commenced by Du Toit Agri (Pty) Ltd / CBI Invest group for the proposed new onion dehydration plant on portion 26 of farm 817 Malmesbury.

Location: Portion 26 is a triangular parcel of land of approximately 50Ha, situated on the west side of the N7 national road, approximately 9km south west of Malmesbury.

Listed Activities:

Activity No(s):	Provide the relevant Basic Assessment Listed Activity(ies) as set out in Listing Notice 1 (GN No. R. 983)
8	The development and related operation of hatcheries or agri-industrial facilities outside industrial complexes where the development footprint covers an area of 2 000 square metres or more.
28	Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (i) will occur inside an urban area, where the total land to be developed is bigger than 5 hectares; or (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;

Exemption: No application for any exemption is sought.

Opportunity to participate: Interested and Affected Parties are invited to register interest within the process, or provide written comments to Eco Impact within 30 days of this notice. The project title, your full name, contact details, plus indication of any direct business, financial, personal or other interest you may have in this application must please be provided and fully described.

The landowners of neighbouring properties (as notified) must please ensure that all persons residing on his land are informed of the application.

WONDERWERKE KAN GEBEUR
 Ek het baie swaargry in my lewens totdat ek "Prof Zam Zam" genader het met al my probleme. Ek het baie ander dokters probeer maar hulle kon my nie help nie. Hy het my oor die foon gehelp in n dag se tyd en winnig iets gedoen en in minute het ek al my verlore geld terug gekry. Al my probleme soos finansies, teespoed, liefdes probleem en nog meer het hy opgelos. Vandag geniet ek die lewe ten volle en my liefdes lewe Sparkle. Ek is die gelukkigste persoon. Met enige van hierdie probleme moet nie meer in die Ronde dwaal nie. "Prof Zam Zam" op hierdie nommer: **060 449 9243**

TABLE 3: COMMENTS AND RESPONSES TABLE

NID / REGISTRATION PERIOD			
STAKEHOLDER/IAP	DATE	COMMENT	RESPONSE
DEADP:DM	12 December 2017	Since solid waste removal services will be provided by the municipality, you are requested to provide this office with written proof that the municipality has sufficient capacity to provide the necessary service to the proposed development. Confirmation of the availability of services from the service provider must be provided together with the BAR.	Solid waste services will not be provided by the municipality.
SANRAL	26 January 2018	<p>SANRAL has no objection with regard to the rezoning of a portion of portion 26 of Farm Leliefontein 817 Malmesbury to establish an onion dehydration plant/facility indicated as alternative 3 on the accompanies plan.</p> <p>Although access is currently obtained from the N7 future access will be from a new service road constructed as part of the N7 dual carriageway upgrade.</p> <p>Once completed access will be obtained from the service road and the direct access shall be permanently closed.</p> <p>No freestanding advertising signs will be allowed in terms of the regulations of advertising on or visible from the national road as published in GG 6968. Any further development on the property will be subject to SANRAL's approval.</p>	Noted.
HWC	20 December 2017	You are hereby notified that since there is no reason to believe that the proposed development will impact on heritage resources, no further action under section 38 of	Noted and stated in EMP.

		the National Heritage Resources Act (act 25 of 1999) is required. However, should any heritage resources, including evidence of graves and human burials, archaeological material and paleontological material be discovered during the excavation of the activities above, all works must be stopped immediately and Heritage Western cape must be notified without delay.	
DWS	30 January 2018	<p>This Department has perused the abovementioned documents for the proposed rezoning and has the following comments:</p> <ul style="list-style-type: none"> • No pollution of surface water or ground water resources may occur due to any activity on the property. • No abstraction of surface or groundwater may be done without prior authorisation from this Department unless it is a Schedule 1 Use or an Existing Lawful Use. • A water use authorisation and registration certificate must be applied for and obtained before commencing with the section 21 (e) "engaging in a controlled activity i.e. irrigation & 21 (g) disposing of waste which may detrimentally impact on a water resource" of the National Water Act, 1998 (Act 36 of 1998). These water uses are triggered by the use of treated sewerage for irrigation, and the storage of treated effluent in an evaporation pond. • Confirmation of a water use registration certificate for the abstraction of borehole water must be submitted to this Department. If there is no water use registration certificate for the borehole water, this must be applied for and obtained before any abstraction of borehole water. Abstraction of borehole water constitute a water use in terms of section 21 (a) of the National Water Act, 1998. 	<p>Stated in EMP.</p> <p>Noted. A WUA will be submitted.</p> <p>A WUA will be submitted.</p> <p>Noted. A WUA will be submitted.</p>

		<ul style="list-style-type: none"> You are hereby advised to arrange for a pre-application meeting with the Department to advise on the water use authorisation process. Please note that as from January 2018, this Department ONLY accepts electronic water use applications. Water use applications can be submitted by following http://www.dwa.gov.za/projects.aspx and then click on e-wulaas. Storm-water runoff must be controlled to ensure that on-site activities do not culminate into off-site pollution. All the requirements of the National Water Act, 1998 (Act 36 of 1998) in terms of water use and pollution control management must be adhered to at all times. 	Noted.
PRE-APPLICATION BAR			
STAKEHOLDER/IAP	DATE	COMMENT	RESPONSE
DEADP	01 March 2018	<p>The abovementioned document and letter dated 16 February 2018, as received by this Department on 19 February 2018, refer.</p> <p>2. This letter serves as an acknowledgement of receipt of the aforementioned document by this Department.</p> <p>3. This Department will comment on the pre-application BAR within the prescribed time period and advise you accordingly.</p>	Noted.
Cape Nature	09 March 2018	<p>1. Historically, the site was covered by Atlantis Sand Fynbos and Swartland Granite Renosterveld. However, the preferred site alternative has been completely transformed by agricultural activities and there is no natural vegetation remaining. The site is also further than 400m away from the nearest watercourse.</p> <p>2. We note that the facility plans to use ground water for</p>	<p>Agreed.</p> <p>The boreholes are already in use</p>

		<p>consumption and for washing. Has the availability of the required volume been determined and will this use affect other ground water users in the vicinity of the development?</p> <p>3. We are pleased to note that the Environmental Management Programme (EMPr) includes a groundwater monitoring programme and stormwater management plan.</p>	<p>for the irrigation of farm lands owned by the applicant. A WUA will be send to DWS for approval of the abstraction to ensure sufficient yield is available and resources are used equitably.</p> <p>Noted.</p>
Swartland municipality	23 February 2018	<p>Your Reference Number: 3009036</p> <p>We Acknowledge receipt of your letter dated 2018-02-23 regarding PROPOSED ONION DEHYDRATION PLANT ON PORTION 26 OF FARM NO. 817, MALMESBURY and confirm that the correspondence is being referred to the relevant Department for attention. Reference Number: 3009036</p>	Noted.
DEADP WASTE	19 March 2018	<p>2.1 Any event resulting in the spill or leak of fuels or any other hazardous solvents into the ground and/or water courses (e.g. that of hazardous substances used during the construction or operational phase), must be reported to all relevant authorities, including DEA&DP Directorate: Pollution and Chemicals Management, within 14 (fourteen) days. This requirement is in terms of Section 30 (10) of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) that pertains to the control of emergency incidents and should include the reporting, containment and clean-up procedure of such incident and the remediation of the affected area. All necessary documentation must be completed and submitted within the prescribed timeframes. Containment, clean-up and remediation must commence immediately in the case of NEMA Section 30 incidents.</p>	<p>Please note that this is state in the EMPr on page 17 of 66.</p>

		<p>2.2. Please note all material used to clean hazardous material spills must be considered as hazardous waste, together with contaminated soil. Moreover, if hazardous waste is mixed with general waste, the entire content of waste must be seen as hazardous and therefore be disposed at a licenced hazardous disposal facility.</p> <p>2.3. Kindly adhere to the NEM:WA National Norms and Standards for the Storage of Waste in terms of Government Notice (GN) No. 926 of 29 November 2013, if the volumes of waste stored exceeds 80m3 for hazardous waste and/or 1 00m3 for general waste.</p> <p>2.4. The Department requests that the EMPr be strictly followed with regards to waste management.</p>	<p>Please note that this is state in the EMPr on page 32 of 66.</p> <p>The NEM:WA National Norms and Standards for the Storage of Waste exclude TEMPORARY storage. Waste will not be stored for longer than 90days. Hence this is not applicable.</p> <p>I do note that the facility should be registered with Province in terms of the new Norms & standards - National Environmental Management: Waste Act (59/2008): National Norms and Standards for the sorting, shredding, grinding, crushing, screening or baling of general waste.</p> <p>Noted and stated in BAR on page 58.</p>
--	--	---	---

Department of health	20 March 2018	This office has no comments at this stage regarding the proposed development.	Noted.
DEADP: Air Quality	22 March 2018	<p>1. BOILER INFORMATION/ SPECIFICATIONS</p> <p>1.1. As indicated in the pre-application draft BAR, a part of the development is to install a Coal Boiler.</p> <p>1.2. The D: AQM require clarity on the name and model specifications of the boiler.</p> <p>1.3. In addition to the above, the D: AQM require the following additional information:</p> <p>1.3.1. The serial number (STB) of the boiler.</p> <p>1.3.2. The manufacturer of the boiler.</p> <p>1.3.3. Type of fuel to be used to operate the boiler.</p> <p>1.3.4. Maximum steam capacity of the boiler.</p> <p>1.3.5. The net heat input of Mega Watt (MW).</p> <p>2. DUST MANAGEMENT</p> <p>2.1. It is foreseen that dust from all potential sources, during construction, operation activities and associated infrastructure would create dust emissions during various construction and operational phases. These impacts can be reduced significantly if various dust suppression measures are implemented to limit the emission of particulate matter from these and other sources. It is recommended that a proper <u>dust suppression plan</u> be developed and implemented.</p> <p>2.2. Ensure that transported materials do not escape from</p>	<p>Noted.</p> <p>1.2. Boiler type: John Thompson 391 or 491, or similar.</p> <p>1.3.1 To be advised once boiler is manufactured/procured</p> <p>1.3.2 John Thompson Africa, or Cochrane Engineering, or Zozen</p> <p>1.3.3 Fuel use: > 90% of steam to be generated from coal (grade A peas), <10% to be generated from HFO (standby boiler)</p> <p>1.3.4 Nine (9) tons / hour</p> <p>1.3.5 Maximum of 7.5 MW</p>

		<p>the construction vehicles by providing adequate covering for all load beds.</p> <p>2.3. It is recommended that exposed unconsolidated surfaces be surfaced, re-vegetated or stabilised as soon as it is practically possible e.g. after earthworks is completed.</p> <p>2.4. Dust generated from the construction activities must comply with the NEM: AQA National Dust Control Regulation (GN No. R. 827) of 1 November 2013.</p> <p>2.5. These regulations prohibit a person from conducting any activity in such a way as to give rise to dust in such quantities and concentrations the dust, or dust fall, has a detrimental effect on the environment including health.</p> <p>3. NOISE AND ODOUR EMISSION IMPACT MANAGEMENT</p> <p>3.1. All plant equipment, including vehicles, must be properly maintained in order to minimise noise generation.</p> <p>3.2. Any complaints regarding noise must be investigated, sources identified and mitigation measures implemented. Feedback on resolution of the issue must be provided to the complainant.</p> <p>3.3. Noise generated from the construction and operation of the proposed activity must comply with the Western Cape Noise Control Regulations P.N. 200/2013.</p> <p>3.4. Combustion equipment and air pollution control equipment should be designed and operated to minimise the production and emission of air pollutants.</p> <p>3.5. All necessary measures must be investigated to limit odour exposure of surrounding receptors.</p> <p>3.6. In terms of Section 35 (2) of the NEM: AQA, the occupier/responsible person/s of the activity must take all</p>	<p>dust suppression plan</p> <p>Stated in EMPr.</p> <p>Stated in EMPr.</p> <p>Stated in EMPr.</p> <p>Noted.</p> <p>Stated in EMPr.</p> <p>Stated in EMPr.</p>
--	--	---	---

		<p>reasonable steps to prevent the emission of any offensive odour caused by any activity on the site.</p> <p>The Department would like to draw your attention to Section 28 of the NEMA, i.e. Duty of Care which states that: "Every person who causes, has caused or may cause significant pollution or degradation of the environment must take reasonable measures to prevent such pollution or degradation from occurring, continuing or recurring, or, in so far as such harm to the environment is authorized by law or cannot reasonably be avoided or stopped, to minimize and rectify such pollution or degradation of the environment."</p>	<p>Stated in EMPr.</p> <p>Stated in EMPr.</p> <p>Noted.</p> <p>Stated in EMPr.</p> <p>Noted.</p>
DEADP DM	23 March 2018	<p>2.1 Public Participation Process ("PPP"):</p> <p>2. 1.1 You are required to submit proof of the Public Participation Process being conducted for the pre-application BAR. This will include (but is not limited to) :</p> <ul style="list-style-type: none"> • Proof that the pre-opp BAR was made available to Interested and Affected parties; • All comments received from Interested and Affected Parties; • A Comments and Responses Report, indicating all the comments received from 	<p>This document includes all of the information referred to.</p>

		<p>Interested and Affected Parties on the BAR and the responses thereto; and</p> <ul style="list-style-type: none"> • A complete list of registered Interested and Affected Parties. <p>2.2 Declarations by applicant, Environmental Assessment Practitioner ("EAP") and specialist: 2.2. You are hereby reminded to include the signed declarations from the applicant, the EAP and specialist in the BAR.</p> <p>2.3 General: 2.3.1 You are reminded to include copies of the Notice of Intent to Develop to Heritage Western Cape and the Water Use License Application in the BAR.</p>	<p>This will be included in the APPLICATION and FINAL BAR.</p> <p>A copy of the HWC NID was sent to DEADP DM with the DEADP NID. A copy of the HWC NID is also sent to DEADP with the application. The BAR does not ask for a Copy of comment from HWC in Appendix E1. Is it really necessary to print and sent out the HWC NID for a 3rd time especially when the comment indicated there are no heritage impacts? It has been included as requested but please advise in future as printing this many times seems onerous.</p> <p>Please note that Water Use Licences have to be submitted on E-WULAAS. See proof of</p>
--	--	---	---

		<p>2.3.2 It is indicated on pages 15 and 40 that steam from the boiler and smoke from the coal/HFO boiler will be emitted.</p> <p>2.3.3 Too little information was provided with regards to the boiler and the impacts thereof have not been adequately assessed.</p>	<p>submission in appendix k.</p> <p>Correct.</p> <ul style="list-style-type: none"> Boiler type: John Thompson 391 or 491, or similar. Manufacturer: John Thompson Africa, or Cochrane Engineering, or Zosen Fuel use: > 90% of steam to be generated from coal (grade A peas), <10% to be generated from HFO (standby boiler) Net heat input: Maximum of 7.5 MW <p>Impact tables updated.</p>
WCDM	23 March 2018	<p>The West Coast District Municipality supports appropriately located agri-processing facilities, provided these do not result in detrimental effects on the environment.</p> <p>Water efficiency during all phases of the development is essential. 4. The Environmental Health Officer of the Division Municipal Health Services of the WCDM does not wish to offer any comments at this stage of the application.</p>	<p>Noted.</p> <p>Noted and stated in BAR and EMP.</p> <p>Noted.</p>
